

UNCOVER HIDDEN SAVINGS IN YOUR SOFTWARE LICENSING

NO UPFRONT COST – SIGNIFICANT SAVINGS

Tired of paying for software licenses that aren't being used?

Concerned about potential legal & financial risks associated with non-compliance?

Find it difficult to accurately track & manage your assets, leading to increased costs & inefficiencies?

TFORM offers a unique solution to help you uncover hidden costs and maximize your IT investment.

How it Works:

- 1 Comprehensive Assessment:** We will meticulously analyze your entire IT environment to uncover unused IT software licenses and unmanaged devices across key areas like monitoring, patching, backup, antivirus, security, and ITSM.
- 2 Data-Driven Analysis:** TFORM automatically identifies licenses being paid for but not associated with active assets.
- 3 Discover Savings:** You'll receive a detailed report outlining potential cost savings and recommendations for right-sizing your licenses.

Benefits:

- **Reduced Costs:** Pay only for the software you need.
- **Improved Budgeting:** Gain better control over IT expenses.
- **Enhanced Efficiency:** Streamline operations & reduce administrative burden.
- **Strengthened Security:** Minimize risks associated with unmanaged assets.
- **Optimized Resources:** Avoid over or under-licensing.
- **Informed Decisions:** Make better choices about software investments.

20%
overspend on underutilized software licenses

\$800K
Average financial penalty due to non-compliance

35%
35% overrun in their IT budgets
